TRUMAN WILL DELIVER TALK FRIDAY NIGHT

Fireside Chat Will Cover a Report on Progress of U. N. Forces in Korea

HOME FRONT ISSUES

Washington, Aug. 30—(P)—President Truman will make a 30 minute "fireside chat" to the nation at 8 p. m. Friday.

The White House said Mr. Truman will deliver a "fireside chat" to be carried by all the major networks. It also will be televised.

The address will cover a report on the progress of United Nations forces in Korea, the critical international situation growing out of the fighting there and the problems of the home front.

On the latter phase, Mr. Truman will discuss his proposed economic controls, the tax increase now being debated in the senate among the matters linked with the emergency.

VFW To Urge Ouster of Cabinet Members

Chicago, Aug. 30—(P)—The Veterans of Foreign Wars prepared to vote today on resolutions calling for the ouster of two members of President Truman's cabinet.

Delegates to the 51st National Encampment are expected to first vote on a measure for the removal of Secretary of Defense Louis Johnson. Also ticketed for presentation to the convention at the Chicago arena was a resolution asking President Truman to discharge Secretary of State Acheson.

The two proposals were the scheduled highlights of today's business session of the some 6,000 delegates here for the five-day convention.

QUICK ACTION ON TAX ISSUE TRUMAN'S AIM

Washington, Aug. 30—(P)—President Truman prodded congress today for quick action on a bill to increase taxes by \$5,000,000,000.

He called acting senate Democratic leader Myers of Pennsylvania and house Democratic leader McCormack of Massachusetts to the White House to urge speed on the measure.

Secretary of the Treasury Snyder, who sat in on the conference, emphasized the terrific job facing the treasury if the increases are to become effective Oct. 1.

"The president emphasized to us the importance of speed in order to assure that the treasury can go forward with the new collections on the scheduled date," Myers said.

Myers said that what with the amendments to be debated he doesn't think the bill can pass the senate before Tuesday.

He and McCormack agreed that once the senate acts a little time will be required to iron out differences in the senate measure and the one previously passed by the house.

Meanwhile there was talk of compromise on the bitterly contested excess profits tax amendment.

Off-stage maneuvering was reported aimed at a settlement about like this:

1. Delay of action on an excess profits levy to take the profits out of war until early next year, but—
2. With a rigid agreement that the profits levy, when enacted, would apply as of July 1, 1950 or Oct. 1, 1950.

If the compromise is accepted, the retroactive application would (Turn to Page Six)

Barn and Contents Destroyed in Conewango Twp. Fire

SAVE FARM HOME—Sugar Grove and Busti firemen won a grim battle against time last night when they stopped a raging fire in a milk house (center) after the flames had destroyed a large barn (left) on the farm of Mrs. Ella Porter in Conewango township. The milk house was located just a few feet away from the farm home, which was saved. (Coyle Photo).

Shepherd Walks 2,900 Miles in Search of Job

Philadelphia, Aug. 30—(P)—A 38-year-old shepherd and his dog walked 2,900 miles from Seattle, Wash., to Philadelphia looking for work.

Andrew Boehm arrived at the 54th St. and Haverford Ave. fire house last night with his dog, Shep.

The shepherd, who said he had worn out eight pairs of socks and three pairs of shoes in his cross country hike, was crestfallen to learn there are few calls for sheep herders in the Philadelphia area.

Boehm said he had hoped to find a job here so that he could earn money for a trip to Germany to visit his mother.

Damage estimated by firemen at \$10,000 was caused last night by a fire which destroyed a large barn and its contents, and menaced a farm home in Conewango township.

The barn was located on the farm of Mrs. Ella Porter, on the Starbrick road just off Route 69 in Jackson Run.

Cause of the blaze was not determined.

Loss on the barn is partially covered by insurance. It was reported.

The blaze, which started in the barn, was discovered shortly after 10 p. m. by Mrs. Porter. She summoned Sugar Grove firemen, who responded with two pieces of equipment and 5 men.

A help call also was sent to the Busti fire department, which sent two trucks and 20 men.

Over 2000 feet of hose was laid to pump water from Jackson Run, augmenting the water supply carried in the tank trucks.

Passers-by helped Mrs. Porter get an automobile out of the barn before the firemen arrived on the scene.

The blaze spread rapidly through the structure, leveling the barn, and destroying a tractor valued at \$1500, 300 bushel of wheat, 25 tons of hay, 15 tons of straw and some farm tools. The contents of the barn were owned by John Sweeney, of Sugar Grove, who was working the farm.

The mounting flames ignited a corn crib and a silo nearby, destroying both of these structures, and then spread to a milk house located only a few feet away from the farm home occupied by Mrs. Porter.

The milk house was partially destroyed, and much credit goes to the firemen for checking the fire before it ignited the farm home.

A new mutual aid program for Sugar Grove firemen and Chautauque County, N. Y., firefighters, was employed for the first time last night.

While Sugar Grove and Busti units were at the scene of the fire, the volunteer department from Kiantone went to Busti, Prewsburg went to Kiantone, and the Lakewood department was alerted for emergency duty.

Members of the Sugar Grove Volunteer Firemen's Auxiliary prepared coffee and doughnuts for the men fighting the fire.

Enemy Losing Heavily in Men During Furious Battle Raging At the Outskirts of Pohang

By The Associated Press

Northern Front: Forty thousand Communist troops batter at eastern anchor and central sector of Allied central wall, with another 10,000 Red troops reported moving into position to smash at either front. Allies lose Kigye. Fighting rages in outskirts of Pohang. Allied line dent in central sector 18 miles north of Taegu.

Western Front: First Cavalry Division troops attack Red-held hill near Waegwan, fighting close to summit. Red attempts to cross Nakdong river to the south repulsed by artillery with bloody losses.

Southern Front: U. S. and South Korean troops retake bloody "Battle Mountain," which changed hands eight times in two weeks. Allies threw back six determined Red attacks in 48 hours.

Air War: Planes van over at Reds all along front lines, taking heavy toll of tanks and trucks, continue punishing raids on Red supply lines.

Washington, U. S., hints it will throw out Communist regime in North Korea eventually.

Lake Success: Russians to remain in Security Council after month of their presidency ends tomorrow with new propaganda blast by delegate Jakob A. Malik. Soviet delegate produces alleged protest by U. S. prisoners of war against continuation of Korean campaign.

Tokyo, Aug. 30 (AP)—Furious fighting wrecked the outskirts of Pohang Wednesday and cost Red Koreans heavily in men for a few yards of ground.

At times both sides attacked simultaneously.

Allied troops held firmly to the No. 2 South Korean east coast port and roads leading westward to threatened Taegu, heart of the Korean central front.

Forty-thousand Communists howled down on the two cities. More were on the march to the hallozone.

Northwest of Taegu, U. S. First Cavalrymen attacked Reds on the highest hill in the Waegwan area.

And on the southern end of the 120-mile long battleline U. S. Negro troops and South Koreans retook Battle Mountain near Hamman, 10 miles northwest of Masan port. It was the eighth time the dominating southern hill changed hands in two weeks—twice Wednesday.

Twenty-thousand North Koreans were engaged in the Pohang battle.

Twin Communist drives from the north and northwest were aimed at the port city.

The Reds were fighting furiously but were far behind in their schedule to wipe out American and South Korean forces by the end of August. They were commanded to achieve this goal two weeks ago by North Korean Premier Kim Il Sung.

Another force of 20,000 Reds fought toward Taegu, in the heart of the central front, from 18 miles north of that rail hub.

The Reds kept some pressure on the west and south sections of the rectangular wall but their main effort still was in the east.

An estimated 110,000 North Koreans were at the long front.

The Reds were trying desperately for a breakthrough.

They recaptured shattered Kigye, nine miles northwest of Pohang, and inched toward the port city. It was the third time in 48 hours that Kigye changed hands.

Kigye fell to the Communists at dawn Wednesday after a Red attack three hours earlier had been repulsed.

A spokesman at General MacArthur's headquarters said South Korean troops hold high ground about half a mile south of Kigye. These hills and not Kigye itself command a highway network and are the main prize in the bloody battle.

Lodger Is Charged With Murdering of Five in a Family

East Greenwich, R. I., Aug. 30—(P)—A young lodger told today, police charged, how he slaughtered one by one a family of five—three children, the husband and the young wife who he said was going to have his baby.

The family, Fred J. Dusza, 39, his wife, Beatrice, 31, and their children, were found yesterday in the ruins of their burned house.

Held as their slayer was Edwin H. Reynolds, 27, a rangy blonde young man who had lodged with the Duszas since he and his wife separated last Christmas. He was at first believed to be a sixth fire victim.

Police Chief Charles R. Johnson said Reynolds will be arraigned later today on charges of murder and arson.

Johnson said Reynolds told him (Turn to Page Six)

Top Labor Leaders Not Volunteering Any Immediate "No-Strike" Promises

Washington, Aug. 30—(P)—Three top labor leaders, in their different ways, made it clear today they won't volunteer any immediate no-strike pledge.

AFL President William Green came closest to giving such a promise. He said the AFL was ready to call off strikes—as it did in World War II—if President Truman asks it. But he added, the president hadn't yet made such a request.

CIO President Philip Murray said talk of such a pledge was "premature." He has crucial negotiations coming up in November or earlier with the entire steel industry, and will be free to strike under his United Steelworkers' contract after Dec. 31. Yesterday he said it was "reasonable to assume" he'd be asking for wage increases for his nearly 1,000,000 steel industry members.

Like Green, the CIO chief said he agreed to forego wartime strikes when asked to do so by President Roosevelt after the Pearl Harbor attack.

The exception then was John L. Lewis, leader of the United Mine Workers, who refused to be bound by the White House pledge or the rulings of the War Labor Board created to process disputes. The miners struck several times in 1943 for underground travel pay.

Green wrote Lewis: "You are at liberty to follow your own 'strike' or 'no-strike' policy, x x x it would seem that you would be out of place if you were affiliated with any organized labor movement which might be committed to a no-strike policy in order to defend our country and save it from Communist aggression."

Hurricane Blowing Toward Louisiana

New Orleans, Aug. 30—(P)—The gulf hurricane, grown in intensity, blew toward Louisiana this morning and weather bureau officials hurried to raise hurricane warnings from New Orleans and Grand Isle, La., to Panama City, Fla.

The hurricane, after sitting nearly still in the gulf for almost two days, jumped forward overnight and at 7:30 a. m. (CST) was 250 miles south of Mobile, Ala., moving in a north or north-northerly direction.

W. R. Stevens, chief forecaster for the New Orleans bureau, said (Turn to Page Six)

Bill Orders End of Nationwide Rail Strike in Canada

Ottawa, Aug. 30—(P)—Canada's parliament today began meeting three times a day to speed passage of a bill ordering resumption of the nation's strike-bound rail service. The end of the week-old nationwide walkout appeared in sight.

Union leaders said after a meeting late last night that they would order the 124,000 strikers back to work after passage of the legislation.

The house of commons scheduled morning, afternoon and evening sessions from today until final passage of the strike-ending legislation. With most customary rules of parliament suspended, the house gave the bill its first reading yesterday and last night took it up on second reading.

A suggestion for an all-night session to conclude second-reading discussion was vetoed by Prime Minister Louis St. Laurent. The major opposition leader, Progressive Conservative George Drew, they agreed the members should study the bill overnight.

The bill must pass three readings in both commons and senate and then be approved by the governor general before it becomes law.

The legislation instructs the railways and unions to get the trains and telegraph lines operating within 48 hours of passage of the bill. Pending a final settlement, the workers will continue to work a 48-hour week and will get a provisional wage increase of four cents an hour.

That was the railways' highest offer during the now-collapsed negotiations.

Failure of the railways and unions to negotiate a settlement within 15 days would result in government appointment of an arbitrator, whose decisions would be final. The legislation guarantees that no employee will be discharged for having struck.

Deputy Coordinator for County Civilian Defense Heard in Timely Talk to Lions

Deputy Floyd Clinger, deputy coordinator for Warren County Civilian Defense, addressed the Lions Club at their regular noon luncheon meeting Tuesday.

Mr. Clinger thoroughly discussed the problems and the methods and procedures to be followed should the area be bombed in event of war or sabotage. He informed the club that the civilian defense was broken up into eight divisions, each division being headed and directed by responsible and elected officials of the county. Each division has been assigned specific duties and responsibilities. Warren county has set up eleven air raid ports and they will be operated by a voluntary group of watchers. Provisions are also being made to take care of a possible influx of people from other adjacent areas that may have disaster strike.

A test for air raid signals is planned for September, however it is not definite whether a complete black-out is anticipated on this test.

Lion Paul Yagge reported attending a meeting sponsoring green pennant safety control for Warren county schools and the club has voted to again participate in the program this year.

September is 100% attendance month for Lions International and a special drive is being put on for all Lions to attend all meetings in September.

President Guenta appointed a nominating committee for selecting officers to be elected for the Heart Association program to be sponsored by the club.

Mr. Mears of Harrisburg, executive secretary of the Heart Association will be in Warren and address the club on September 12, and further outline the program and aims of the association. It is expected Lions will come prepared to thoroughly discuss and ask questions of Mr. Mears at this time.

Universal Military Training Measure Believed In Cold Storage for Present

Washington, Aug. 30 (AP)—Most lawmakers agreed today that President Truman had put Universal Military Training (UMT) in cold storage at least until January by saying again he sees no need for immediate action.

Chairman Tydings (D-Md) called his senate armed services committee back into closed-session to decide what to do with UMT legislation it had planned to approve this week.

A new drive to get congress out of Washington by Sept. 9 contributed to the general disposition to spike UMT for the time being.

The president called Tydings and Chairman Vinson (D-Ga) of the House Armed Services Committee to the White House for a general discussion of defense legislation yesterday.

Later the White House made public identical letters to the congressional chairmen. These repeated President Truman's past support for UMT but listed the difficulties of trying to start a vast military training system now.

"Legislation of this character x x x should be placed on the statute books at an early date so that we can put it into operation as soon as the circumstances permit," the president said. Accordingly I hope that your committee will continue its active consideration of this legislation with a view to seeking final action on it as soon as possible.

Platform Writers for Major Parties Are Undecided About Specific Tax Program

Harrisburg, Aug. 30—(P)—A top Republican leader said today was doubtful if the GOP platform for the 1950 campaign would propose any new taxes.

The GOP source, who declined citation by name, said a specific tax program would be "dynamite" in the campaign.

He said it was unlikely that there would be any plank on taxation in the platform, but if the party's platform writers change their minds, and it does appear, it will not deal with specific tax proposals.

Both Republicans and Democrats agree that the 1951 legislative session is faced with the job of raising more money, chiefly to finance a \$440,000,000 veterans bonus.

They only differ on the extent. Richardson Dilworth, Democratic candidate for governor, says the figure will have to be close to \$250,000,000. A \$150,000,000 sum has been mentioned by a GOP leader.

The GOP source, declining citation by name, said a specific tax program would be "dynamite" in this campaign.

Dilworth has been campaigning for creation of a tax study group to look into the hot issue between now and the time the lawmakers meet next January. But Duff and former Judge John S. Fine, GOP gubernatorial nominee, have ignored him.

Dilworth and Fine, however, agree on pushing for repeal of the cent-a-bottle levy on soft drinks one of Duff's pet projects.

POLIO CASES IN THE STATE EXCEED 1949

Harrisburg, Aug. 30—(P)—Pennsylvania's total of infantile paralysis cases so far this year stands at 370, compared with 315 at this time last year.

Despite the increase, a state health department spokesman said yesterday there is still a good chance that the year's final total may be less than 1949's more than 900 cases.

Allegheny county leads the state at present with 64 reported cases of polio. Northampton is second with 42. Lehigh with 37 and Westmoreland with 28 are next.

DESIRE VACATION

Washington, Aug. 30—(P)—Congress inched today toward the possible start of a fall vacation in two weeks. Plans to wind up the session then were hinged on indications President Truman would not ask further emergency powers.

LIGHTNING SETS OFF DYNAMITE IN A MINE

Pottsville, Aug. 30—(P)—A lightning bolt travelled 430 feet along an underground wire and exploded five charges of dynamite killing two miners.

Harvey Reiner, 32, of Donaldson, Pa., and Harry Hartz, 35, of Tremont, were working in an independent when the freak accident occurred. The dynamite exploded in their faces.

Hartz was dead when removed from the mine. Reiner died today in Pottsville hospital.

THREE ARRESTED FOR STEALING STICKERS

Pittsburgh, Aug. 30—(P)—Three men are under arrest today, charged with stealing auto inspection stickers and selling them to owners of tickety cars for \$10 a piece.

At a hearing before Magistrate John J. Florucci yesterday, Walter Cunningham, 42, and Joseph Schreckengost, 23, both of Pittsburgh, were held for court on a charge of burglarizing a garage of 50 stickers, Vincents Eberhart, 38, a west end garage operator is accused of buying the stolen stickers.

Fighter Planes In Busiest Day of War

Tokyo, Aug. 30 (AP)—U. S. fighter planes roared out today in "one of their busiest days in the 67-day-old Korean conflict," Far East Air Forces headquarters said.

One group of F-51 Mustangs strafed and bombed supply lines from Pyongyang, North Korean capital, almost to the Manchurian border.

B-29s in small formations struck bridges north of Parallel 38.

F-80 Shooting Star Jets concentrated on ground troop support. Flying in ideal weather, they blasted railroad trains and started blazes in four villages.

F-82 Twin Mustangs attacked trains near Kaesong, 30 miles north of Seoul.

B-26 light bombers slammed 1,000-pounders at North Korean supply dumps.

For GOOD-ness Sake

By Betty Rice

By BEA...
Mrs. Katherine Bell, American Red Cross Home Service secretary for the Warren County chapter says that the Red Cross will convey emergency messages to individual servicemen under the following conditions: When commercial telegraph or cable service is not available and when postal facilities are too slow—in cases of death, or serious illness and of birth; if there are complications and problems of allowances, allotments or business affairs in which time is a factor.
When a member of the family has been unsuccessful in efforts to communicate directly with the servicemen about an urgent family matter. When the services of a Red Cross representative are needed to help the serviceman meet the shock of distressing news. Set-up to handle these types of communications are 3,700 Red Cross chapters in the United States and 21 field workers in Korea.
Blood donors should know about iron-rich foods. Blood donating may not sound as glamorous as it did in wartime, but more blood is needed on the home front than was used on World War II battlefields (and blood is now being sent to Korea). Blood is needed in large quantities at all times and your local Red Cross chapter appeals for more pledged donors for future monthly collections.
Blood is quickly built up by drinking additional liquids and eating protein and iron-rich foods. Foods, rich in protein are meat, fish, poultry, eggs, cheese and milk. Many foods contain traces of iron. A few are really rich in iron, and liver is the best of these. Molasses, an economical source is second to liver.
Get healthy today and give blood when you can.

405 Warren County Persons on Public Assistance Rolls

Warren county had 405 persons on Pennsylvania public assistance rolls during the first half of August, according to an announcement from the State Department of Public Assistance.
Throughout the state the number of persons receiving public assistance showed a decrease for the tenth consecutive semi-monthly period. 15,363 persons left the rolls while only 9,051 were added. The net result was a decrease of 6,332 people.
Employment gains accounted for a decrease of 5,017 people or approximately 80 percent of the total drop.
The total number of people on the rolls, as of Aug. 15, was 378,568. Of these, 77,177 were receiving general assistance, 99,943 old age assistance, 190,242 aid to dependent children and 15,506 blind pensions.

STALIN AND OUR FAMILY GOSSIP

Anybody who's alive says and does a lot of things in the privacy of his own home and family he'd just as soon not shout about to the neighbors.

That being the case, such things remain a family affair. But once you open the windows and start shouting, the neighbors are going to have a field day misinterpreting—and rebroadcasting—what they hear.

On a much larger scale, the same course of events holds true for a couple U. S. family affairs which at the moment are making excellent gossip for our Communist neighbors across the world, which in this day and age is just across the street, reminds Summer Ahlbum in an editorial written for NEA Service.

One of these has to do with the railroads—the other, with the secretary of the Navy.

To be sure, the trains never stopped running, although it could have been otherwise. The Brotherhood of Railway Trainmen and the Order of Railway Conductors had already shown they were going to stop everything that runs on rails—and that means a major part of the nation's life—unless the President took over. Just about the time we were being assured the trains wouldn't stop, Secretary of the Navy Francis P. Matthews let go with the declaration we should "pay the price, even the price of instituting a war, to compel cooperation for peace."

What he said drew sharp rebukes from the White House and State Department. It was the most open split in the official Washington family since Henry Wallace was disinherited in 1946.

We are not arguing the merits of either the railroad unions' dispute nor Secretary Matthews' philosophy. We do not consider Matthews a wild-haired friend of the Commies.

We do think, however, that both parties—the railroad men and Matthews—gave a lot of "aid and comfort" to our unfriendly neighbors behind Stalin's iron mustache. The Big Lie is really nothing more than the malicious story a gossip down the street starts airing when she hears something through your open window you never intended her to hear. When you put it on a global basis, it doesn't take much imagination to guess what Russia can do with the family affairs we've just shouted out to the world.

Stalin can get a sympathetic audience of other people down the street when he tells them—as we're sure he will—that the railroad men don't want to work because they don't believe in what we're doing in Korea, and the government had to force them to work. The same audience will be all ears when he shrugs his shoulders and asks how anybody can believe America's honorable intentions when a cabinet member—and one of the military, at that—says we ought to start a war now. We know otherwise, of course, because we're in the family. But it would have been a lot smarter to have kept the window closed in the first place. Neighbor Stalin—and we don't mean good neighbor—can cook up enough bad gossip, enough big lies, without us putting them in his mouth.

The first of a number of events under consideration to honor members of Company I, 112th Regiment, Pennsylvania National Guard, will be held tonight when the unit will be guests at a dinner and program to be staged on the American Legion home lawn if weather permits. The event will take place after the Guardsmen complete their drill at Betty Field, and according to all reports will give the boys a pleasant and entertaining evening. It has been learned that Lt. Col. Adam J. Dreibleib, executive officer of the regiment, has been named to succeed Col. Kenneth M. Momeyer as commanding officer August 31, and will lead the unit into encampment at Camp Atterbury early in September. The new commanding officer is an Erie man who was with the 112th when it went to France in World War II. He was severely wounded during the campaign but has passed army physicals.

The final holiday of the summer, Labor Day, is just around the corner, and the next day or two will witness the first exodus of people going to distant parts for the long weekend. This period usually signals the end of the summer season and the reopening of schools and colleges. People of the Warren area will crowd the weekend with visits to recreation points and nearby resorts. Most stores and industrial plants will shut down for the three-day weekend to give employees a final summer vacation fling. Banks, state and federal offices will cease activities for the brief period. Then the borough and district will turn thoughts to the highlights of the autumn and winter season, such as the world series and High School football.

The Way It Looks From Where We Sit

Here And There

The column today received a boost from another subscriber in the form of the following communication received in the morning mail:

"Editor Here And There: Dear Ed—A couple of weeks ago we wrote a little baseball story as a tribute to the Hot Stove League. That story has a sequel you might like to pass on. After you ran the story in your column the sponsors of the little Rantam Champions contacted the team's manager and made plans to fete the little fellows. Monday evening William E. Yeager, official of the Community Consumer Discount Co. and an assistant, visited the home of the manager, Floyd Anderson, in Pleasant township, where the lads in the orange sweaters and caps had gathered as per arrangement. After everyone had had his fill of ice cream, chocolate milk and cookies, the little champions gave their sponsors an exhibition, not only of their baseball prowess but in a few bouts with the boxing gloves as well. From all reports a good time was had by all. Sincerely—M. C."

This And That: Special observances are scheduled for Labor Day in at least two communities in the county—At Scandia, where the annual Elk township home-coming reunion will be held, and Sheffield, where the V.F.W. will bring to a close the Old Home Week celebration with a variety show in the evening, and grand finale at the carnival grounds.

Lobby Act May Be Bolstered
Following Committee's Report

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON (NEA)—Pennsylvania Congressman Frank Buchanan's Select Committee to Investigate Lobbying Activities is preparing to drop a dozen hot reports soon. They should do much to throw the spotlight on Washington's \$8-million-a-year high-pressure industry.

But according to Chairman Buchanan himself, "This just scratches the surface. There is still much unfinished business."

What the investigation has proved so far, says Chairman Buchanan, is that lobbying has gone underground.

Ways have been found to evade the Lobby Registration Act which was made part of the Congressional Reorganization plan of 1946. One of the Buchanan Committee's most important reports, still in the drafting stage, will be legislative recommendations to strengthen the Lobby Registration Act now on the books.

The committee has already issued two reports. One covered a detailed study of the housing and real estate lobbies. The other was a preliminary report on lobbying by the Federal Security Agency in behalf of its own proposals for health insurance.

To be released within the next week or so are three reports, each dealing with a pair of opposing lobbies—one supported by liberal interests, the other by conservatives.

One report will cover lobbying activities of Public Affairs Institute, and the Foundation for Economic Education.

Another report will cover activities of Dr. Edward A. Rumley's Committee for Constitutional Government and William L. Patterson's Civil Rights Congress.

BOTH Dr. Rumley and Patterson have refused to disclose completely the sources of their financial backing, and they face a possible committee recommendation that they be cited for contempt of Congress.

Also facing possible citation for contempt is Joseph P. Kamp, vice president of the Constitutional Education League. Kamp has already been sentenced to four months in jail for refusing to disclose the source of his backing to the House Campaign Committee.

Merwin K. Hart's National Economic Council and Americans for Democratic Action—whose chairman is ex-Attorney General Francis Biddle—will be the subjects of the select committee's third in this series of special agency reports.

Other reports to come from the committee will cover lobbying activities by Department of State, Department of Agriculture and other government agencies. American Bar Association witnesses are to testify in September and their appearance will be followed by a report on contingency fee lobbying, the particular pet of the legal profession in Washington.

A series of four special reports will be issued on lobbying activities investigated by the committee's staff, but on which there has been no time to conduct hearings. They will cover activities of the small business groups, the electric power lobby, the medical profession's lobby, the savings and loan companies' lobby.

Another special report will analyze returns from a questionnaire sent out by the Buchanan committee to business, labor, farm and other pressure group organizations active in Washington. Finally there will be an over-all report by the committee, summarizing the results of its investigations this far.

The committee has had a somewhat stormy year. But it has uncovered a lot of useful information on how the pressure groups operate and how they attempt to influence legislation. It has shown that these are subjects which require almost constant policing in the public interest.

Dunkirk, next week, offer suggestions for area motorists who will be looking for some place to go for exciting and interesting entertainment between now and next Tuesday. . . . According to the Bradford Era a setter owned by George Haehn, of this city, and handled by Larry Tuttle of Johnsonburg, finished out of place but gave a good account of itself, in the open derby class at the opening of the Pleasant Field Trials of the fall circuit, held by the Bradford Field Trial club Saturday. . . . Morning Roundup: Sorry to learn of the death of Sam Waters, 66, who as vice president and treasurer of the Pittsburgh Pirates, came to Warren back in August, 1938, when the Bucs played a game with the Hyvris Oils, at Russell Field, before a crowd of about 3,000 fans. Pi Traynor was manager of the Pirates and they played the regular lineup. At the time Pittsburgh was in first place in the standings but later lost out in the race for the title and a crack at the World Series. Caldwell and Jewell formed the starting battery for Warren, and to the astonishment of the fans as well as the Pittsburgh players, the Hyvris Oils won by a score of 4 to 3. Joe Gardner was manager of the local team, and was responsible for bringing the Pirates to Warren. . . . In case you have been wondering about it, Daylight Savings Time ends in Warren on the night of September 23, or morning of Sunday, the 24th! . . . A breakdown of the spreading machine was the only thing that prevented the contractors from finishing the blacktopping of St. Clair street Tuesday. The widening project makes the thoroughfare look like a regular boulevard.

GAME SCHEDULED

bride, presented her in marriage.
She was lovely in a white mar-
quisette gown with lace trim styl-
ed with round neckline at the fit-

breath centered with a white
orchid. She wore a seed pearl
necklace, a gift from the bride-
groom.

groom was Benjamin Malec of
Warren, his brother. Ushers were
George Yarzadek of Warren, John
May and Walter Serafin, both of
Oil City.

A wedding dinner and reception
followed at the Club House where
a bridal table was centered with a
three tiered cake, crested by a
miniature bride and bridegroom.
Guarding the central arrangement
were bouquets of baby pom poms
and chrysanthemums and white
tapers in crystal holders.

For her Canadian wedding trip,
Mrs. Malec chose a navy blue suit,
white accessories and a white or-
chid. Mr. and Mrs. Malec will re-

Plans Announced For Collecting Taxes Under New Social Security Legislation

Washington—(AP)—The Internal
Revenue Bureau has announced
preliminary plans for collecting
taxes under the new Social Secu-
rity act signed by President Tru-
man Monday.

The chief point in the sparsely
detailed announcement was that
report forms rather than stamps
or coupons will be used for col-
lecting social security taxes on
house servants and farm workers.
This means that payment of the
tax must accompany the reporting
form.

On Jan. 1 the new act will put
about 10,000,000 additional per-

sons under coverage of Social Se-
curity, lifting total coverage to
some 45,000,000 workers.

The principal groups added by
the new act and the collection
methods announced by revenue
commissioner George J. Schoene-
man are:

1. Household workers: A simple
form is being prepared for house-
wives and other employers of regu-
lar domestic workers (maids,
cooks, etc.) to file every three
months.

The first return will be
April 30, 1951. Schoeneman said
further details will be provided be-

Mrs. Minnie Eck, 69, of Los An-
geles, and a former resident of
Marienville, died Tuesday in the

ing a heart attack.

Mrs. Eck, who left the Marien-
ville community in 1947 following
the death of her husband, had re-
turned there to visit her brother
Albert.

Surviving are the following chil-
dren: Glenn and Fred, Los An-
geles; and Cecil, Fredonia, N. Y.
A sister, Olive Bush, Fontana,
Calif., five grandchildren and one
great grandchildren also survive.

The body was removed to the
McDonald Funeral Home in Mar-
ienville, where friends may pay
their respects. Services will be
held at the Radcliff Methodist
church, but the date and time will
not be set until word is received
from relatives in California.

For Jan. 1. He said families hav-
ing business employees will be al-
lowed to add their household work-
ers to their regular returns to
the business workers.

2. Farm workers: Since only 16
regularly employed farm workers
are covered by the new act, the
reporting forms (form 941) used
by businessmen will apply to farm
workers subject to the new act.
Schoeneman said. The first re-
turn on farm workers also will be
due April 30, 1951.

3. Self-employed persons: A
special Social Security tax on self-
employed persons will be collect-
ed annually through the regulat-
income tax returns. Schoeneman
said. The first payment by these
individuals will be due March 15,
1952.

The every-three-months reports
required from employers of house-
hold servants will call for such
information as names of the serv-
ants, number of hours worked and
wages paid. To be covered, serv-
ants must work at least 24 days in
a quarter for the same employer
get at least \$50 pay in the same
period. Two days work weekly is
sufficient to qualify a servant
for Social Security.

Farm workers, to be covered
must work 60 days or more in a
quarter and earn at least \$50 in
cash for that period. They also
must previously have worked con-
tinuously for the same farm own-

Lodger Is Charged With Murdering Five In Family

(From Page One)
he fought with Dusza and beat him to death after an argument Monday night in which Reynolds said he was the father of a baby expected by Mrs. Dusza in October.

What appeared to be a fire tragedy turned into a hunt for Reynolds late yesterday when only five bodies were found in the ruins of the Dusza home. Doctors said four of the victims were strangled.

Reynolds was captured late last night by troopers who surprised him in the home of his estranged wife, where he was alone.

Johnson said Reynolds admitted in an oral statement taken in the presence of other officials that he bludgeoned Dusza with a chair and axe, garrotted Mrs. Dusza and two of the children with ropes or silk stockings and strangled the third child with his bare hands.

Reynolds related, the chief said, that he hit Dusza with a chair during an argument, then got an axe from the cellar and "finished him off" despite the pleas of Mrs. Dusza. The nature of argument was not disclosed.

The chief quoted Reynolds as saying that Mrs. Dusza followed him into a bedroom and that he garrotted her with a silk stocking, when the eldest daughter entered the room, Johnson said, the boarder strangled her with his bare hands and then garrotted the other

two children in bed with stockings and ropes.

The bodies were found yesterday in the fire-wrecked Dusza home in an isolated section of the community.

While the decision hung in the balance American intelligence reported the Red commander apparently is throwing another division into the battle.

General MacArthur's headquarters said evidence is increasing that the North Korean 15th Infantry Division is side-slipping across the northern face of the perimeter moving eastward.

The MacArthur spokesman said Allied forces still hold the initiative on the east coast. The South Korean assault started Monday. It was halted and pushed back slightly Tuesday but was resumed Wednesday.

Burwood is a tiny settlement in the southwest pass at the mouth of the Mississippi river about 50 airline miles south of New Orleans.

Grand Isle is a lush beach resort about 50 miles south southwest of New Orleans. It is connected with the mainland only by a low-lying causeway.

Sivens said that normally the weather bureau tried to get hurricane warnings at least 24 hours in advance, "but this time we may be a little shy of time."

At the same time another hurricane, in the Atlantic east of Bermuda, appeared to be veering farther out to sea.

Delay in action would be a concession to Chairman George (D-Ga) of the senate finance committee and others who contend that congress may do serious harm to the nation's economy if it adopts a hastily prepared tax on profits.

President Truman is supporting George's position that action should be delayed pending thorough study.

SOUTH AFRICA TO HELP

Washington, Aug. 30.—(P)—South Africa's offer of a fighter plane squadron for the United Nations forces in Korea was formally accepted today. In a ceremony at the Pentagon, Secretary of Defense Johnson accepted it "on behalf of the United States government and of General MacArthur," the United Nations commander. The U. N. has authorized the United States to accept tenders of aid for its military forces.

TWO-CAR GARAGE

A two-car collision six miles north of Titusville on Route 27 resulted in a \$1000 damages at 9:20 Tuesday morning. State police said Charles R. Huston, 25, of Grand Valley, fell asleep at the wheel while rounding a curve and rammed into the left front of an automobile driven by Robert Lowes, 36, of Oil City. Huston was treated for cuts on the head at the Titusville Hospital and discharged. He will be charged with failure to yield one half of the highway, according to police. Lowes was not injured, but his car received damages amounting to \$600 and Huston's to \$400.

AMATEUR GOLFER DIES

Atlantic City, N. J., Aug. 30.—(P)—James E. (Sonny) Fraser, 33, nationally known amateur golfer and speaker of the New Jersey assembly, died at his home last night of a chronic illness. Expressions came from throughout the state and from across the nation. New Jersey's Governor Driscoll, on vacation in Maine, called the death "an irreparable loss" to the citizens and officials of his state. In Hollywood, Comedian Bob Hope said he was "deeply hurt."

FINDS TOT SAFE

Pittsburgh, Aug. 30.—(P)—Three volunteer firemen searching for an 18-months-old boy who disappeared from his South Liberty home found the tot, naked but unharmed, a mile from his home last night. The youngster, Stevie Humman, wandered into thick woods while playing in his back yard. He was found lying on a pile of shale, wearing nothing but shoes. His disappearance touched off a widespread search by volunteer firemen, county police and detectives.

Senate Passage of Anti-Subversive Bill Is Predicted

Washington, Aug. 30.—(P)—With overwhelming house approval, a bill designed to put the spotlight on activities of Communists and their "fronts" moved today to the senate amid prospects it would be passed next week.

The house okayed the measure by a whopping 354 to 20 vote late yesterday after several hours of debate.

Should the senate version of what to do about Communists differ from that of the house—as is likely—the differences will be ironed out by negotiators from the two chambers.

The vote in the house exceeded that given two years ago when it passed the original Mundt-Nixon bill. The vote for that bill, which died in the senate, was 319 to 58.

The house-passed bill includes major features of the old Mundt-Nixon measure, plus some new ones drawn up by the un-American Activities Committee.

A new feature makes it a crime for a Communist or a member of a Communist-front organization to hold a job in the government or in a defense plant.

Before passing the bill, the house beat down, 153 to 84, a substitute by Rep. Celler (D-NY). Celler said the substitute carried out the recommendations of President Truman for dealing with subversive activity.

In a message to congress Aug. 8, Mr. Truman asked for legislation to require the registration of foreign-trained espionage agents and saboteurs. He also asked a general tightening up of present laws dealing with espionage and subversive activities.

The house went beyond Mr. Truman's recommendations.

FREEZES PROJECT

Pittsburgh, Aug. 30.—(P)—A freeze order from Washington has halted the sale, transfer or demolition of any part of the \$55,000,000 in defense projects in the Pittsburgh area. The ruling affects a total of 9,289 dwelling units. This includes 4,800 in Allegheny county, 999 in Pittsburgh and 3,480 in Beaver county. The facilities were erected during World War II for essential war workers.

THE MARKETS

New York, Aug. 30.—An air of quietness hung over the stock market today as most prices moved narrowly. Only at the start was there anything like brisk activity. That didn't last very long. For the most part the leaders were only a few cents higher or lower and a great number remained unchanged.

Former Official of the Pirates Is Dead

Pittsburgh, Aug. 30—(P)—Samuel E. Watters, 66 who rose from ticket seller to vice president of the Pittsburgh Pirates baseball club died last night.

He had been a patient nearly three years in a private nursing home after suffering a stroke in 1947. He had another stroke Sunday.

Watters resigned as vice president in 1946 after the club's franchise was purchased by Frank McInney and his associates. McInney later sold his interests to the partners.

Watters' baseball career began in a roundabout way. He took summer jobs as a ticket seller for Pittsburgh theaters during his vacations from Adrian College in Adrian, Mich.

His experience got him a job with the Bucs handling mail orders for the World Series of 1909. He stayed with the ball club.

Watters became secretary in 1920 and was named vice president and treasurer in 1931. He traveled almost a million miles with his team.

State Had 1,558 Forest Fire Mark During Year 1949

Washington, D. C.—All but 10 of Pennsylvania's 1,558 forest fires during 1949 were man-caused. The total acreage loss was 32,805. Despite an increase over previous years, the area burned per fire last year was held to a below average low of 21.1 acres.

Careless campers accounted for nearly half of the state's 1949 forest fires. All Pennsylvania woodlands are under organized protection.

These figures were revealed in a report published by American Forest Products Industries. Based on official U. S. Forest Service statistics, it shows comparative fire loss figures for all states. National sponsor of the forest fire prevention program—Keep America Green—AFPI is a non-profit organization supported by the country's leading wood-dependent industries.

Commenting on the Pennsylvania forest fire record, AFPI forester J. C. McClelland called for continued emphasis on fire prevention education.

"The Keep Green program, active in Pennsylvania and 27 other states, provides an effective vehicle for citizens interested in combatting forest fire losses. All Americans," Mr. McClelland declared, "must be made aware of the importance of fire prevention. Every woods fire that burns destroys resources this country needs to remain strong and prosperous."

The AFPI forester stressed the need for full public support of federal and state fire control agencies. He called for continued cooperation between industry, the public and woodland owners in preventing fire.

"South knew that West had started with six spades and four cards in the red suits. He had already played two clubs and could have only one club left. South could not tell that West had kept the blank queen, and therefore decided to finesse the ten of clubs in the attempt to make his contract. Naturally West took the rest of the tricks.

"On paper, West lost the contract when he discarded the deuce of clubs, since this gave declarer the chance to take the ace of clubs and drop the queen. If

West had kept his clubs he could then be thrown in with a spade, and forced to lead up to declarer's clubs.

"Was there any way for declarer to know what was going on?" As the hand was played, declarer could not be sure of what was going on. West deserves credit for a very fine defense.

However, declarer could have given himself a better chance for his contract if he had refused one of the early spade tricks. This would have made it necessary for East to find one additional discard.

East could not afford to discard a diamond or a heart. If he discarded enough clubs, South would probably be able to figure out the situation in that suit.

For example, if South ducks one round of spades, East must discard three clubs on spades alone.

He must also follow suit twice when declarer plays clubs. Since this accounts for all of his five clubs, the declarer should have no trouble in reading the situation.

The Pilgrims did not wear the somber brown and black clothing shown in most paintings. Brilliant colors predominated in their dress.

Yank Artillerymen Increase Shown In Central Figures In Adventure Story

Masan Front, Korea — (AP) — Two American artillerymen were cut off and hid in the Red-infested hills 18 days. They said they spent their time reading the Testament and praying to the Lord. They reached American lines late today.

They are Sgt. Charles Unit of Honolulu and Cpl. Lester L. Drake, Toronto, Kas., both of the 555th Field Artillery Battalion.

Weak and ill, they were rushed to a hospital by ambulance after telling one of the great adventure stories of the Korean war.

Unit and Drake were beside their guns Aug. 11 when a North Korean slipped in and ambushed the position. He threw a grenade at Unit. It failed to explode.

While their guns and vehicles flamed up around them from Communist incendiary grenades, the two artillerymen crawled through the triumphant, shouting Red Koreans and up to the hills. That was at Pangam—which now is six miles behind Communist lines.

"Each day seemed a year," said Drake. "We hid in the hills during the day, sleeping and reading the New Testament. Unit had in his pocket and praying to the Lord to guide us."

"We had no food. We dug turnips out of the fields with our own hands, and stole cucumbers," Unit chipped in. "A few times we found 'C' ration cans. Americans had thrown away when they were up here. Sometimes the little can of jam had not been eaten."

Once they had in a house. Some one must have seen them enter. Communists came up and fired a machinegun into it. Neither was hit.

The cocksure Communists were so certain everyone in the clapped house had been killed they did not search it.

"They were all around us," said Drake. "Once a whole regiment walked by on a road 25 feet from where we were hiding. Each night we moved back toward the American lines a little, going slowly. We were not taking any chances by trying to make it all at once. We hit the seacoast and followed that."

"We each had a carbine but did not dare fire or our hiding places would have showed up," Drake said. "Communists had lots of artillery and supplies around. We didn't see any tanks though."

The pair saw some Americans on the skyline today and shouted. The Americans are part of Hawaii's Fifth Regimental Combat team. The Doughboys rushed them back to regiment headquarters.

Members of the Ninth Ward Hot Stove Intermediate baseball team and their team leaders were guests of their sponsor, the Warren Business College, at a chicken dinner held last night at Jackson Heights Dine and Dance.

Virgil Kittner served as master of ceremonies for an informal program that included brief talks by Edward Marek, manager of the Warren Business College, and Hot Stove officers and ward leaders.

A similar dinner for the Blue and White Restaurant team will be held tomorrow night at the Blue and White.

Sylvania Election Incident Recalled

Washington, Aug. 29.—(AP)—The House Un-American Activities Committee today reopened its investigation of the United Electrical Workers Union, but got little information from its first witness.

Alex Leih, publicity man for the U. E. during a recent collective bargaining campaign in Sylvania Electric plants in Pennsylvania, refused to answer any questions dealing with Communist connections.

Rep. Walter (D-Pa.), who presided, called Leih "a candidate for contempt charges."

Three U. E. organizers who took part in the Sylvania Electric bargaining campaign were present, but will not be heard until later. They were Henry Fiering, Ben Riskin and Winchard Dee.

(Note: Winchard Dee, mentioned in the above Associated Press dispatch is the same man upon whom a congressional subpoena was served in a local restaurant during the campaign preceding the election held in the Warren Sylvania plant, which was won by the I. U. E.)

National Service Life Insurance Plan Is Explained

National Service Life Insurance is available to those persons who are presently in the active service with the armed forces of the United States. A. R. Guyler, regional manager of the Veterans Administration announced today.

He emphasized that any person, including members of National Guard units who are accepted for active federal duty, may be granted \$10,000. National Service Life Insurance on one or more of seven plans under certain conditions, as provided by the National Service Life Insurance Act of 1940, as amended, provided the order to active duty, is for more than 30 days.

In addition, Mr. Guyler stated those persons who were granted National Service Life Insurance by reason of active service between October 8, 1940 and September 2, 1945, both dates inclusive and who have surrendered such insurance for cash, paid up or extended insurance may apply for additional insurance if they re-enter active service at the present time.

He further stated that no medical examination is required if the application and payment of premium is made within 120 days from the date of entry into active service.

In 1949, the population of Australia was estimated at 7,912,000.

FIRST PRESBYTERIAN PLANS GET-TOGETHER

As has been done in past years, the First Presbyterian church is planning a get-together for its young people who are returning to college in the coming weeks. This year a picnic supper has been planned for tomorrow night at six o'clock at the Swick home, 345 East Fifth street.

Those working on committees are Meredith Hutchings, Mary Evelyn Hill, Cynthia Caldwell, Patty Mowell, Bob Swick, Chuck Cochener and Peggy Henderson.

As it is necessary to plan food for those planning to attend, any of the young people who have not yet returned their cards to the church office may still make their reservation by calling Patty Mowell at 3027 this evening.
